Scope of This Certificate

This certificate reports the analysis of BPC-157 active pharmaceutical ingredient, lot BPC194522. Valar Peptides has identified this lot as the material used to fill its BPC-157 oral capsule product, declared as 500 mcg per capsule, 60 capsules per unit. Novagen Analytical Labs did not sample or test the finished capsules. Accordingly this certificate does not report capsule content uniformity, dissolution, disintegration, microbial limits, or the identity of any capsule shell or excipient, and it makes no statement about the strength of any individual capsule. The results below apply to the active ingredient lot only.
